**Pirie Tasmania SOUTH
Riesling 2008**

With just a touch of sweetness (3.5 g/l residual sugar), the 2008 South Riesling displays very fragrant, floral aromas of honeysuckle and lime blossom with hints of mandarin peel, fennel seed and wax. Dry, crisp, and medium-bodied, with good concentration leading to a long finish, this is **drinking superbly** now though it has the character and structure to develop beautifully through 2018+.
