

9 Mile Road Cabernet Sauvignon 2008

TASTING NOTE:

These grapes come from a single vineyard in Wrattenbully, located on the southern edge of the Limestone Coast just west of Coonawarra. It's noted for shallow red soils over limestone, undulating aspect, and coolish climates (for Australia). The resultant wines are elegant, with true varietal definition.

This wine displays juicy, ripe, soft tannins with notes of menthol and eucalyptus. Flavors are of mulberries and other dark fruits, plus all the "extra vinous" sought after complexities, such as tobacco leaf.
