

DISCOVERY

The contemporary front label features the Southern Cross, a group of bright stars that are visible only from the Southern Hemisphere. These stars guided the first Maori and then European navigators to discover New Zealand.

This cuvee was selected from several high quality vineyards in Marlborough. Grapes were crushed and de-stemmed prior to pressing, and fermented at cool temperatures to preserve the lifted aromatics.

This wine displays straw to light yellow color. Aromatics are abundant, and feature fresh cut grass, citrus and white stone fruits. Flavors follow through nicely, overlain by a hint of minerality. This is a high-toned, fruit driven wine, with a refreshing, crisp finish.

This wine makes a natural combination with seafood, light meats, pasta, salads, and Asian cuisine.

Enjoy!
